Prof Terry Speed
Head of Bioinformatics Division
Walter & Eliza Hall Institute of Medical Research
Australia

Prof Terry Speed is head of the Bioinformatics Division of the Walter & Eliza Hall Institute of Medical Research in Melbourne, Australia. He obtained his BSc (Hons) from the University of Melbourne in 1965, and a Diploma of Education and PhD in mathematics from Monash University in 1969.

He has held teaching appointments at universities in Sheffield (UK), Perth (Australia), and Berkeley (USA), and has been a research manager in Australia's Commonwealth Scientific and Industrial Research Organization.

His main interest is in applying statistics and mathematics to biomedical research, with a current focus on cancer genomics.
