## **Damien Perriman** **Vice President Business Development** **Verdezyne**

Damien Perriman is developing partnerships that advance the commercialization of Verdezyne's proprietary bioprocesses for converting renewable raw materials to biobased industrial products. He will be responsible for positioning Verdezyne as a technology provider to major chemical and fuel companies, providing sustainable solutions for future energy and material needs.

Prior to joining Verdezyne, Mr. Perriman was a senior commercial leader for The Dow Chemical Company's Bioscience Platform, where he led multi-functional teams to identify and validate projects for biobased chemicals.

Prior to joining Dow, Mr. Perriman served as the Deputy Trade Commissioner to the Americas for the Queensland Government of Australia and in technical sales with Mirotone, a specialty chemicals company.

Mr. Perriman holds an MBA from the University of California Los Angeles, Anderson School of Management and a Bachelors Degree with Honors in Industrial Chemistry from the University of New South Wales, Australia. He has spoken on issues of sustainable development at numerous conferences and serves on several government and industry advisory boards.
