Ian O'Hara

**Senior Research Scientist and Theme Leader – Bioenergy Queensland
University of Technology (QUT) Centre for Tropical Crops and
Biocommodities**

Ian O'Hara is a Senior Research Scientist and Theme Leader – Bioenergy with the Queensland University of Technology (QUT) Centre for Tropical Crops and Biocommodities.

Ian leads the development of the Mackay Renewable Biocommodities Pilot Plant – an NCRIS, Queensland Government and QUT funded facility for research and demonstration of biofuel production from cellulosic biomass.

Ian is currently involved in a number of significant collaborative research projects with industry partners in the fields of second generation biofuel production, biomass processing and biorefining.

Ian has worked extensively within the Australian sugar industry in production, policy development and research.
