

Kiara Bechta-Metti
Commercialisation Manager
CSIRO IP, Licensing & Technology Transfer Support

Kiara has over 18 years experience in the biotechnology industry as both a scientist and a financial analyst in Australia and the US. She has lived in Australia for the past twelve years working in corporate advisory and equities research focusing on health care, medical device and biotechnology companies. In the US she worked for several Silicon Valley based biotechnology companies.

Kiara has been part of transaction teams instrumental in raising funds for seed-stage companies through to billion dollar market cap companies and has led fundraisings for a number of start-ups.

Kiara received her Bachelors in Molecular and Cellular Biology and MBA (emphasis in Management of Technology) from University of California at Berkeley.
