

PETER A. BRENDERS

President and CEO, BIOTECCanada

Peter Brenders joined BIOTECCanada as President & CEO in February 2005. Previously, he worked in health and corporate affairs in senior management roles at Genzyme Canada and Schering-Plough Canada. Mr. Brenders has also worked in the Ontario Ministry of Health and in the health consulting practice at KPMG.

Mr. Brenders is currently a member of the Life Sciences Practice Advisory

Board for the Department of Foreign Affairs and International Trade, a member of the Advisory Council for Algonquin College's biotechnology program, a former director of the

Biotechnology Human Resources Council, and has served as a member of the Privy Council Office's Reference Group on Regulating, as a Board member and Treasurer of the Registered Nurses Association of Ontario Foundation, and has contributed to the Canadian College of Health Services Executives and served as the Chair of its Toronto Chapter.

Mr. Brenders regularly offers industry presentations at domestic and international events and conducts regular lectures to graduate classes at McMaster University. He received his MBA, in Health Services Management from McMaster University. Prior to his brief work in basic research at the Robarts Research Institute, he received his Honours BSc in Pharmacology and Toxicology from the University of Western Ontario.
