

**Robyn Lindner  
BSc (Hons), PhD  
Chief Scientific Officer  
Tyrian Diagnostics**

Dr Robyn Lindner is Chief Scientific Officer at Tyrian Diagnostics.

She has over 15 years experience in the Biotechnology sector with particular experience in leading teams to timely delivery in development of diagnostic tests from biomarker discovery to test development.

Robyn is responsible for managing the company's research and development portfolio and establishing the relationships with external collaborators and partners associated with these projects.

This includes working with partners such as Bayer CropScience for the development of rapid, point of need diagnostic tests for crop quality and Becton Dickinson for the development of diagnostics tests for the detection of TB.

As part of Tyrian's management team, Robyn is also responsible for the identification and development of new business opportunities in point of need Diagnostics.

Dr Lindner has a PhD in Biochemistry from the University of Sydney. Prior to joining Tyrian, Robyn held research positions at the University of Wollongong and the Heart Research Institute in Sydney.
