Scott Sarazen
Global Life Sciences Markets Leader
Ernst & Young, LLP

Scott serves in the role of Markets Leader within Ernst & Young's Global Life Sciences Center. In this role, Scott is responsible for all aspects of the firm's global marketing, communication and go-to-market strategies for the pharmaceutical, biotechnology and medtech industries. Mr. Sarazen and the marketing team serve as the primary conduit between the firm and the life science industries for the purposes of tracking the changing landscape of these dynamic sectors and communicating E&Y's proven value proposition.

Mr. Sarazen has enjoyed over 20 years of experience working directly and indirectly in the life science industries. Prior to joining EY in 2006, Scott's career has included roles in biopharmaceutical facilities design,

strategic operations and business development in positions as: Senior Vice President of Corporate Development at Straumann, North America and Director of Global Planning and Development at Genzyme Corporation. Scott has also served in public economic development roles, advocating for the expansion of the biomedical industries, as the Senior Vice President for Life Sciences with MassDevelopment for the Commonwealth of Massachusetts and as a special consultant to the Chief Economic Development Officer for the City of Boston.

Mr. Sarazen holds a Bachelors of Science in Engineering from Worcester Polytechnic Institute and a Masters of Science in Management from Lesley University.

In addition to other affiliations, Scott serves on the: Advisory Board of the Harvard-MIT Division of Health Sciences and Technology (HST); Board of Trustees for the KIPP Academy in Lynn, MA; the Advisory Board for the City of Boston's Life-Tech Initiative; Advisory Board for Boston World Partnerships; and on the Economic Development Committee at the Massachusetts Biotechnology Council
